

Hands on Training on PCR and

Real Time PCR

Sr.NO.	Programme	Contents	Duration	*Fees (INR)
1.	PCR	Basics of PCR, reaction set up, Analysis	2 days	4000/-
2.	PCR	Basics of PCR, Types of PCR, primer designing, reaction setup, Analysis and interpretation	2 days	6000/-
3.	PCR and its applications	Basics of PCR, Types of PCR, primer designing, reaction setup, method development, Analysis and interpretation, RNA PCR, multiplex PCR, molecular marker (AFLP, ITS)	5 days	10,000/-
4.	**Real Time PCR	Basics of real time PCR, reaction set up, data collection, analysis and interpretation, MIQE guidelines	3 days	10,000

^{*}includes reading material and lunch. Training will start after one week of registration.

#Fee structure for industrial participants will available on request.

^{**}available from February 2016. A batch of five is essential to conduct the course.
